PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Election/Restrictions

Applicant's election without traverse of claims 1-22,35 and 40-48 in the reply filed on 2/11/08 is acknowledged.

However, applicant failed to make a proper election on the species election requirement. Particularly, applicant failed to elect a species from group B:

B. Elect one species from the species represented by figures 2,3,4,6,7 and 9.

Applicant is required, in reply to this action, to elect a single species each from group B to which the claims shall be restricted if no generic claim is finally held to be allowable. **The reply must also identify the claims readable on the elected species, including any claims subsequently added.** An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
